

*Ideal Producers Group*

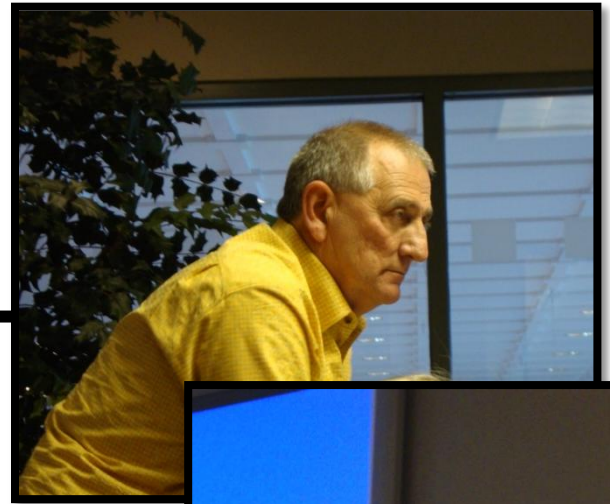

# Forum

Approximately 10 times throughout the year, *Ideal Producers Group* holds a Forum in their offices in Overland Park, Kansas.

This is a unique opportunity for a select few to attend an all-expense-paid, day and a half of training and networking that is unlike any other available in the industry. Simply the time spent with industry icon, Ron Essary, and the other marketing executives at *IPG* is worth the trip; but Agents also hear from Actuaries who have designed dozens of popular Annuities. There's no better way to get accurate answers to questions about the products you sell...or the products you compete against.

Attendees enjoy the comfortable setting in the *IPG* conference room as well as the intimate size of the group where everyone is able to participate and leave the sessions with information that is pertinent to their own business and marketing strategy. While the education is consistent, each Forum is incredibly unique as a result of the networking opportunities afforded the attendees. For this reason, *IPG* extends invitations to only those who would be able to benefit from as well as add to the meeting.

Call your Sales Advisor today to see if space is available at our next session.
